SUMMARY

Detail-oriented and motivated final-year Software Development student with knowledge in software development, web application development, database management, data analysis, and basic machine learning. Experienced in developing web-based systems using PHP, CodeIgniter 4, MySQL, HTML, CSS, and JavaScript through academic and personal projects. Passionate about developing practical software solutions that improve user experience and system efficiency. Seeking a 6-month internship opportunity from 20 September 2026 to 19 March 2027 to gain practical industry experience and contribute to the development of innovative software solutions.

EDUCATION

Universiti Sultan Zainal Abidin (UniSZA) Besut Campus **October 2023 – Present**

Bachelor of Computer Science (Software Development) with Honours, CGPA: 3.88

- Final Year Project: EatSmart - A Web-Based Diet and Calorie Tracking System Using a Rule-Based Algorithm

Kolej Matrikulasi Kedah (KMK) **August 2022 – May 2023**

Matriculation Programme: Science Physical (Module II), CGPA: 3.75

- MUET: Band 4

PROJECTS

Final Year Project **October 2025 – Present**

EatSmart: A Web-Based Diet and Calorie Tracking System

- Developed a web-based diet and calorie tracking system to help users monitor daily calorie intake and maintain healthier eating habits.
- Implemented a rule-based algorithm to generate personalized calorie recommendations based on users' health profiles and activity levels.

Individual Web Application Project **April 2025 – July 2025**

BookCorner: A We-Based Used Textbook Marketplace for University Students

- Developed a web-based marketplace platform using PHP, CodeIgniter 4, and MySQL to enable university students to buy and sell used textbooks, promoting affordable access to learning resources.
- Implemented features for book listing, product search, category filtering, and book management to facilitate efficient textbook transactions.

SKILLS & LANGUAGES

- **Technical skills:** Microsoft Word (Intermediate), Canva (Intermediate), Microsoft Excel (Intermediate), Microsoft PowerPoint (Intermediate), Python (Basic)
- **Soft skills:** Strong problem-solving abilities and the capability to handle challenges effectively
 - : Willingness to learn, adapt, and embrace new ideas and technologies
 - : Good time management and organizational skills with the ability to meet deadlines
 - : Proactive attitude with the ability to take initiative and work independently when required
- **Languages:** Malay (Native), English (Proficient)
